## About SCIC

We are a new generation development consulting company based in London. We undertake extensive research on social, environmental, economic and political development challenges in the mix. We undertake the crafting of integrated development strategies for implementation; and provide advice to governments, businesses and individuals focusing on needs and peculiarities of the customer. Our key drivers are high ethical values, quality and social enterprise.

### Training:

#### Public sector governance in the 21<sup>st</sup> century

This training considers complex governance issues in the public sector in diverse and dynamic environments and compares differences and similarities in governance in the private sector to learn from and influence best practice. The course brings into discussion and focus, the purposes for which public sector boards may be set up, the responsibilities and challenges of public sector boards and provides guidance (considering innate variables peculiar to environmental circumstance) on the constitution and responsibilities of public sector boards. The course introduces risks and risk management in the public sector and the Nolan Principles of public life in proposition.
