## About SCIC

We are a new generation development consulting company based in London. We undertake extensive research on social, environmental, economic and political development challenges in the mix. We undertake the crafting of integrated development strategies for implementation; and provide advice to governments, businesses and individuals focusing on needs and peculiarities of the customer. Our key drivers are high ethical values, quality and social enterprise.

### Training:

#### Managing lean in resource constrained environment – the public sector

It is almost basic understanding that resources are limited and have alternative uses. Whilst it is easy to define, understand, quantify measure and value in some reasonable way, material and financial resources; human resources in number, quality and time require better appreciation, and value is critical to determining the nature of resources mix, processes development and application to deliver value. Resource creation, conversion, management and leadership in the public sector would create efficiency and improve public sector performance. This course will tutor the lean concept and focus on delivering value as perceived by citizens.

#### Suitability

Participants should be public officers in operations driving business activities in public sector organisations.

#### Duration and delivery location

**4 days** in the UK. It can be organised overseas

#### Cost

The cost of packaged training for **groups of 10** will cover lodging, feeding, course materials, tutorials and **4 days** London city transportation including airport pickup. Please contact us to negotiate a quote.
