## About SCIC

We are a new generation development consulting company based in London. We undertake extensive research on social, environmental, economic and political development challenges in the mix. We undertake the crafting of integrated development strategies for implementation; and provide advice to governments, businesses and individuals focusing on needs and peculiarities of the customer. Our key drivers are high ethical values, quality and social enterprise.

### Training:

#### Quality management for the public sector

Quality Assurance and Control are very important part of organisational success and project performance. Internal processes and operations must increasingly measure up to high performance in the delivery of services to citizens. Quality Assurance and Control best practices are important in the public sector, to engineers and other practitioners who manage and oversee various developmental projects undertaken by government and its agencies at huge costs. This course is designed to enable participants learn how basic quality control concepts and statistics can improve on service and projects performance through their life cycle. The course also introduces Total Quality Management (TQM).

#### Suitability

Participants should be public officers involved in quality management and the development of standards in operations and projects.

#### Duration and delivery location

**3 days** in the UK. It can be organised overseas

#### Cost

The cost of packaged training for **groups of 10** will cover lodging, feeding, course materials, tutorials and **3 days** London city transportation including airport pickup. Please contact us to negotiate a quote.
