## About SCIC

We are a new generation development consulting company based in London. We undertake extensive research on social, environmental, economic and political development challenges in the mix. We undertake the crafting of integrated development strategies for implementation; and provide advice to governments, businesses and individuals focusing on needs and peculiarities of the customer. Our key drivers are high ethical values, quality and social enterprise.

### Training:

#### Social Responsibility and the public sector

This training emphasises the robust dynamic relationship that should exist between various sectors of the economy in an environment. It exposes the roles and responsibilities of the public sector in consideration of other sectors from a social and environmental costs and benefit perspective for possible trade-off. The training highlights global best practice along the lines of the triple bottom-line representing social, environmental and economic responsibility.

#### Suitability

Participants should be public officers involved at senior levels of planning and decision making with potential social and environmental impacts on the public.

#### Duration and delivery location

**3 days** in the UK. It can be organised overseas

#### Cost

The cost of packaged training for **groups of 10** will cover lodging, feeding, course materials, tutorials and **3 days** London city transportation including airport pickup. Please contact us to negotiate a quote.
